# CHALLENGES

# Dear life, When I said “can my day get any worse” it was a rhetorical question not a challenge

## Weekly\_earning Json File

It is quite difficult and time-consuming to extract data from the weekly\_earning JSON file

## New Definition

There are some new definitions which are from the real estate industry

## Finding Relationship between 6 different tables

Analyzing and understand how to connect the data values to find the answer. Moreover, it also requires a basic knowledge of economy

**THANK YOU**
